Can't Eat

You certainly don't want to eat if
you are not hungry. But you must
eat, and you must digest your food,
too. If not, you will become weak,
pale, thin. Good food, good appetite,
good digestion, — these are essential.

Mr. Robert Venus, of Lancaster, Tas-
mania, sends us his photograph and says:
"I suffered greatly from loss of appetite,
indigestion, pains in the stomach, weakness,
and nervousness. Several doctors tried in
vain to give me relief. A friend then induced
me to try Ayer's Sarsaparilla, for it had done
him much good. The first bottle worked
wonders for me. Soon my appetite came
back, my indigestion was cured, and I was
strong and hearty."

**AYER'S
Sarsaparilla**

There are many imitations "Sarsaparillas."
Be sure you get Ayer's.

Keep your bowels in good condition by using
Ayer's Pills. They cure constipation, coated
tongue, biliousness, sick headache.

MORGAN TURNED DOWN.

**British Parliament Refuses Him
London "Tube" Rights.**

London, Oct. 29.—The efforts of
the promoters of the Morgan "tube"
railway scheme to procure the re-
establishment of the Parliamentary
status of their original franchise
bill as a whole, led to an hour's de-
bate in the House of Commons to-
night, the only result of which was
the withdrawal of the endeavor.

The Morgans intend to ask later
for the recommitment of the bill grant-
ing rights for their proposed "tube"
and other lines without regard to
London United Tramway Com-
pany, which was to have been oper-
ated in connection with the Mor-
gan "tube," but which was pri-
vately brought up by the Verkes
interests. Thomas G. Ashton, who
moved the recommitment of the Mor-
gan bill, accused the London
United Company of a dishonorable
transaction, and said he doubted
whether so "dirty a transaction" has
ever been entered into by parties
coming before Parliament. He
said also that the House should re-
sent this action by passing the
Morgan bill, thus giving the Mor-
gans a chance. Ashton's proposi-
tion was greeted with cries of "No,
no."

Round Horn With Oil as Fuel.

It is quite likely that a large por-
tion of Hawaii's sugar crop for next
season will be transported to New
York in freighters that burn oil in-
stead of coal, as the big steamers
of the American-Hawaiian Com-
pany which make the voyage
'round the Horn, are to be fitted
with oil burners as soon as possible.

The manager of this company
has recently been in the West In-
dies, establishing a station there
for the storage of oil for the big
vessels. The station is most con-
venient for the vessels when located
there as a good supply of Texas oil
can easily be transported from Gal-
veston to any point in the West
Indies, and secured at a much less
expense than would be the case if
the station were located further
south.

Korea is Very Fast.

Fan Francisco, Oct. 30.—At her
slip yesterday the Pacific Mail liner
Korea rested easily after her great
run from Yokohama, ending Tues-
day, and was visited by many peo-
ple, some of whom took occasion to
congratulate Captain Seabury over
her performance. Officials of the
Pacific Mail Company were in high
feather over the Korea's record.
Captain Seabury says it is possible
for the Korea to maintain an aver-
age of eighteen knots an hour all
the way from Japan, and at that
rate the big steamer could make the
run hence to Honolulu in four
days, nineteen hours and thirty
minutes. Many passengers are
being booked for the liners next
trip to Hawaii and the Orient.

Danish Treaty Fails.

Copenhagen, October 22.—The
Landsting today rejected the sec-
ond reading of the bill providing
for the ratification of the treaty be-
tween Denmark and the United
States in regard to the cession of
the Danish West Indies to the latter
country. The vote stood 32 to 32,
a tie. The announcement caused
great excitement in the House and
demonstrations on the part of the
spectators. In the voting there
was one absentee, the Rightists
and two Independent Conservatives
opposed the bill. The Leftists and
six Independent Conservatives sup-
ported it.

Canada's Vast Areas.

Less than 10 per cent of Mani-
toba's land has been taken up.
The neighboring territory of Assini-
boia has nearly 60,000,000 acres,
mostly suitable for wheat cultiva-
tion. Alberta, near the Rockies, is
500 by 300 miles in extent, and
Saskatchewan is another empire in
area.

English in Russia.

English is more and more taking
the place of French as the language
of Russian court circles. The
Czarina speaks English constantly,
and the Czar, too, likes to express
himself in the same tongue.

FRENCH RIOTS.

**Troops Quell Strikers at Dunkirk
France.**

Paris, Oct. 23.—Dispatches from
Dunkirk indicate that the situation
there was serious. The striking
dock laborers were terrorizing the
town and the Governor-General
was taking additional measures for
the repression of the disorders.
Martial law has been proclaimed.
Cavalry repeatedly charged the
crowds today. Some rioters were
killed and a number were wounded.

The strikers invaded the law
courts during the day and inter-
rupted business there. They were
charged repeatedly by cavalry on
the square in front of the law courts.
The rioters assailed the soldiers
with bricks and scrap iron. A
Lieutenant of cavalry and all the
commissaries of police present were
wounded. Two additional regi-
ments of infantry have arrived here.

"A Kindergarten Cabinet."

The new Cabinet which Mr.
Balfour is bringing into being has
already found a popular name in
the appellation of "The Kinder-
garten." Never before have so
many young men been called upon
to deliberate on the destinies of
British affairs as now. There has
always been one youngster at the
fore, like Pitt or Charles James Fox,
but his exuberance has universally
been checked by the surrounding
influence of mature old age on the
part of other Ministers. But now
here is, for instance, George Wynd-
ham, the Irish Secretary, who has
been accommodated with a seat at
the Cabinet table in Downing street.
He is scarcely 43 years of age.
Then there is Austen Chamberlain,
the new Postmaster-General; the
son of "young Joe," the Colonial
Minister. He is still in the thirties
and a Cabinet Minister. It is not
many years ago since the father ap-
peared in the lobby of the House
leading his promising offspring by
the hand and pointing out to him
the various Parliamentary celebri-
ties, such as Gladstone, Bright,
Parnell, Lord Salisbury, Balfour
and the ever faithful Jesse Collings,
who now finally retires from hon-
orable second place in the fight for
public recognition.

How Water Freezes.

It used to puzzle all thinking
people why ponds and rivers do not
freeze beyond a certain depth.
This depends on a most curious
fact, namely, that water is at its
heaviest when it reaches 40 degrees
Fahrenheit—that is, 8 degrees
above freezing point. On a frosty
night, as each top layer of water
falls to 40 degrees, it sinks to the
bottom; therefore the whole pond
has to drop to 40 degrees before
any of it can freeze. At last it is
all cooled to this point, and then ice
begins to form. But ice is a very
bad conductor of heat, therefore it
shuts off the freezing air from the
big body of comparatively warm
water underneath. The thicker it
gets the more perfectly does it act
as a great coat, and that is why
even the Arctic ocean never freezes
beyond a few feet in thickness—

The Knockers.

She had a little hammer,
She used it with a will,
She knocked at everybody—
They couldn't keep her still;
She knocked about her neighbors
If they were friends or foes,
She knocked about the table
And knocked about her clothes.
She knocked at hubby's smoking,
About his snoring, too;
She knocked about his whistling,
And so, perhaps, would you;
At last the Reaper claimed her,
Her course on earth was run;
Her husband then considered
Her knocking days were done.
But hubby went one evening
To see a spirit show,
Where always, in the gloaming,
The spirits come and go.
He heard a spirit knocking—
"My wife," he said, "I'll bet!
Now isn't she a wonder?
By gosh! she's knocking yet!"

HOARSENESS IN A CHILD that is
subject to croup, is a sure indica-
tion of the approach of the disease.
If Chamberlain's Cough Remedy
is given as soon as the child be-
comes hoarse, or even after the
croupy cough has appeared, it will
prevent the attack. It always
cures and cures quickly. The Hilo
Drug Store sells it.
